The above names are a few of the contractors who have built homes within Shuswap Lake Estates.

We strongly recommend you do your own credibility checks and are 100% comfortable with your choice.

We suggest a minimum of three quotes be obtained prior to choosing your contractor.

Shuswap Lake Estates strongly recommends against signing any contracts that include cost plus building or management fees. Past experience indicates that detailed lump sum payment contracts are the best way to go.

Costs on changes or extras should be agreed to between both parties, in writing, prior to the changes or extras being started.

Make certain the contractor you choose is insured, and is registered with HPO the Home Owner Protection Office, and has a workers compensation number.

Happy Building and Welcome to Shuswap Lake Estates.
